BUFFALO TRIVIA QUESTION OF THE MONTH:

Who started a farm implement business in Buffalo in 1881?

ANSWER TO LAST MONTH'S TRIVIA:

There was a trail at Justice Hoffbauer's Court on Saturday in which Mr. Levi Moore was plaintiff and Mr. McKarg was defendant. Mr. Moore sold Mr. McKarg a kicking cow, after having told the latter she would kick the hat off his head if she got a good chance. McKarg returned the cow refusing to pay for her. Mr. M. was indignant at such boy's play, and sought justice from the court which decided that the cow should be paid for. T.J. Halbert for plaintiff and J.W. Stewart for defendant.

Buckaroo News

Although our Civil War Re-enactment season has been a bust this year due to COVID, there is an event in Menomonee Falls, WI this weekend of which I am attending. It is a **CIVIL WAR ENCAMPMENT AND BATTLE** held by the local historical society on July 18, 2020 - July 19, 2020.

This event is one of the premier Civil War Living History Reenactments in the area. Here is your chance to be up close to re-enactors displaying the ways of life and war of our American History. New demonstrations and speakers at this two-day event include General Grant's Press Conference, President Lincoln's Gettysburg Address, medical procedures and a soldier cooking demonstration.

Experience life as it was for troops and civilians during the Civil War. See an authentic Civil War Cannons being fired during the Battle at 2:00 PM both days in a newly enlarged battle field. Pre-battle narration by General Grant will set the stage for the "Battle of Cedar Run." Skirmishes and training events are viewable throughout the weekend.

Gift Shop, scavenger hunt, artillery drills, cooking demonstrations, storytelling, Civil War memorabilia and entertainment can be seen during the weekend event. Food, drinks, kettle corn and Ice cream all available during this family-friendly event.

Buffalo History 101

Hugo Hoffbauer was 12 years of age when his parents came to America and had consequently received his education in the land of his birth. He accompanied them to Watertown to Janesville, Wisconsin, and then assisted in the construction of the house-boat. Finally, when they took up their residence in Scott County, he did his full share in cultivation of the farm. His life was interrupted by the inauguration of the Civil War, for like the many young men of ambition, Mr. Hoffbauer was very anxious to offer his services in the support of the Union and at the same time win distinction on the field of battle. Therefore he enlisted in the fourteenth Iowa Volunteer Infantry, August 17, 1862, where he served as Lieutenant and then as Captain in a little more than two years of service. See his photo on the Memory Lane page.

SENIOR MOMENTS

Getting old in this Covid bull taxes my patience. Otherwise I should remind people, I still have critters, and

equine, and ride and train and feed and water. Do not underestimate me. Spelling sucks but my mind is very active and I love living alone but enjoy my son here and my critters. Training a new filly and lots to do on farm. Moving FENCES as always and talking to the animals keeps them and me in great shape.

Now is a crazy time in this ole world and I wear a mask for safety and stay on the farm. I am happy talking to friends, working with Animals and reading daily newspaper.

Not happy about the great Mississippi Valley Fair being cancelled. I was at laundry mat and heard on radio of it being canceled and cried all day. I NEVER MISS THE MVF. I Plan and enter lots of categories and work ponies and horses and milk goats and trim feet to be ready. This really Hurt. I love showing, making things, seeing friends, entering, eating and all my entries with Scooter, Casper, and my goats and other critters. My world has been turned upside down.

After all this is over, masks put away and things settle down, and election is over, maybe things will slow down Have lots of training to do with ponies driving.

I may be aging but do not count me out. I am ok and pulling weeds daily and talking to the animals. Kim and family and friends come by and I love visits.

Just because the world is moving around and changing, quit worrying. God is still our leader and will guide us thru the problems. Remember to pray and help others.

I am not leaving my farm and critters. Randy does the farm stuff and I work with animals.

Hang on and keep active. Your Senior on the hill has a lot more years to go. Love and slow down and enjoy what ever we need to cope with.

We will survive.

Dana Jo And Randy.

We are Tuf-A-Nuf.

News from ECHO BLUFF RANCH

Buffalo, Iowa

It is pleasing to hear that the town leaders are moving forward in amending the ordinance to

allow backyard chickens.

Here are some preparation tips to do BEFORE you get chickens:

Chickens need a secure coop and run to protect them from predators. with adequate space. The rule of thumb is a minimum of 2 to 3 square feet per chicken inside the chicken coop, and 8 to 10 square feet per chicken in an outside run. More square footage is better. Skimping on space

requirements for a flock of chickens can cause stress, pecking, and sometimes even death. Therefore, for 6 chickens, you will need a 3x6 foot coop, and an 8x10 foot run. I would personally steer clear of the pre-fab coops that are sold in the big box stores. These are expensive, but not made very sturdy or with enough protection or space. The easiest and most secure chicken coop is a small shed that you are able to walk into, with a chain link dog kennel attached.

The coop/shed will also need to allow for sunlight and ventilation. At least two windows that will open and close to protect from frigid weather. Most hardy chicken breeds do not need heat in their coop in the winter, but need it to be dry and draft free. A thermostat controlled heated nipple waterer is best for clean fresh water all year long. This is important for healthy chickens and can be found here at this link:

Help Hummers Stay Healthy!

STOP Painting the Town **RED**

Do not use **RED DYE** or **STORE-BOUGHT** nectar in your feeders! It isn't necessary and can harm hummingbirds.

Make your own nectar!
 It's simple, inexpensive, and healthier for the birds.

Recipe:

- 4 cups boiling water
- 1 cup granulated sugar

That's it! Don't add anything else.

Hummingbird Basics

Clean and refill regularly. Follow the following guide for frequency:

- 70° – 84° Every 3 days
- 85° – 87° Every 2 days
- 88° and up Every day

If the nectar is cloudy, or if you notice black residue on the feeder, clean the feeder and refill it immediately. These are signs of bacterial growth and mold.

The red dye and preservatives in store-bought nectar can be harmful, and even deadly, to hummingbirds. Making your own nectar is easy and inexpensive, and can be stored for up to 2 weeks in the refrigerator. Be sure to use granulated cane sugar only.

Appreciate where you are in your journey,
even if it's not where you want to be.
Every season serves a purpose.
